Self-adhesive
PROTECTION PAPER P60+ *Clever, smart, time-saving!*

Self-adhesive universal cover and surface protection material based on a robust, tear-resistant kraft paper reinforced with a special coating and a substrate-friendly water based special adhesive. The *PROTECTION PAPER P60+* is impermeable for water and other liquids. The sturdy paper has a very good adhesion – this keeping the paper from shifting – and sticks to many surfaces, e.g. floor grounds, heaters, windowsills and handrails. It is adjustable at any time. After usage it is removable without leaving any glue residues and it is possible to re-use it.

PROTECTION PAPER P60+ is also suitable for direct coating with paint or varnish. On smooth surfaces and upon removal direct after applying paint the product can serve as a painters tape. When applying on structured or non-smooth surfaces the additional use of painters tape is recommended. There are varied application possibilities, for covering and protecting DIY works, as a base for creative- and handicrafts, as a self-adhesive paper table cover, etc.
